## Trails are a breath of fresh air!

In these unprecedented times, trails have become the "safe-haven" for so many. They provide an opportunity to get out of the house, stretch our legs and give us a chance to put our worries aside, even if just for a short time. Although it is fantastic to see so many people finding trails for the first time, we must remember to keep all safe practices at the forefront of our behaviors so that trails are not closed as well.

Here are some additional helpful tips:

- If you go to your favorite trail and the trailhead is packed - try a new trail! Check out our regional trails at [www.wmtrails.org](http://www.wmtrails.org).
- Follow XC Ski trail signs so that you don't have to walk against oncoming traffic.
- Step aside for oncoming trail users! Keep the 6' social distancing even when outdoors.
